

University of
New Hampshire

Join us for an informal session with our special guest and keynote speaker for this year's New England Fall Astronomy Festival (NEFAF). Meet Dr. Seth Shostak, Senior Astronomer at the SETI Institute.

Dr. Shostak is the Astronomer leading the search for intelligent life elsewhere in the universe!

When: Friday, September 9 from 1:00—2:15 PM

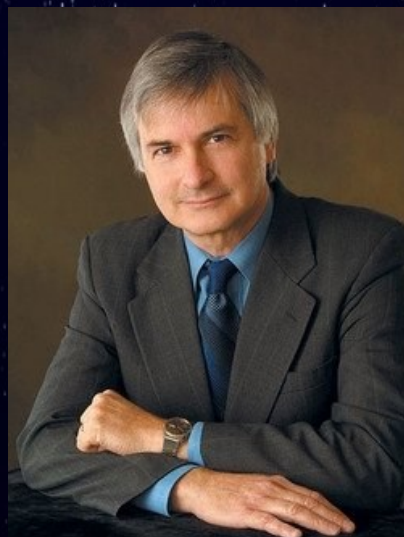

**Where: Spaulding Hall, room 120, UNH Durham campus
Free admission for this presentation.**

Dr. Shostak's keynote lecture that will officially kick-off this year's Festival will take place at 7 PM at the UNH Observatory.
